Subject: Construction Traffic  
Effective Date: May 1, 2010  
Approved: Rich Strong, Director Environmental Health and Safety  
Paul Norris, Chief of Police

Purpose  
This Directive has been established to define expectations for the safe travel of construction equipment on the IUPUI Campus.

Scope  
The Directive applies to all contractors and sub-contractors operating construction equipment on the IUPUI Campus.

Policy  
Contractors and sub-contractors working on the IUPUI Campus are expected to comply with the following:

- All construction related motorized vehicles shall not exceed a speed limit of 15 miles per hour on IUPUI Campus streets or exceed a speed that is unsafe for the conditions. The IUPUI Police Department has the right to issue a ticket if they determine that speeds are unsafe for driving conditions;
- Speeds must not exceed 5 miles per hour in IUPUI Parking lots;
- All construction equipment must be equipped with a back-up warning signal; and
- A traffic controller must be used when moving equipment from a job site into a roadway that may impede traffic or pedestrian travel.

Authority and Responsibility  
IUPUI Police Department shall be responsible for:  
1. Enforcing this directive; and  
2. Issuing tickets for violations of this directive.

IUPUI Department of Environmental Health and Safety (EHS) shall be responsible for:  
1. Monitoring construction activities; and  
2. Reporting unsafe driving to the IUPUI Police Department.

Contractors shall be responsible for:  
1. Operating equipment in a safe manner by driving slow and watching for pedestrians; and  
2. Following this directive.
